

# Field Force Management

Powered by: **Mobility eXchange**

Mobility Exchange focuses on providing our client's field labor with the best digital tools possible while also automating any manual processes that hinder productivity and create substantial overhead.

## Key features

- Dispatching & Automated Scheduling
- Optimize Routing, GPS Navigation and Location Tracking
- Time Tracking and Driver Logs
- Secure Chat and Team Collaboration
- Customized Electronic Forms
- Invoicing and Signature Capture
- On Site Payment Processing
- Expenses & Fuel Cards
- Field Worker Safety
- Custom Reporting
- Custom Client Dashboard

## Benefits

- Improved Customer Satisfaction
- Improved Productivity
- Improved Quality and Accuracy
- Increase Revenue
- Lower Costs
- Greater Visibility

## How it works

Mobility Exchange takes the time to evaluate client's pain points and expenses for field environment, geographical routes and labor force engaged. Upon thorough analysis, we create a unique proposal that combines multiple remote solutions such as asset tracking, administrative automation, monitoring, work order management, etc.
