

# Mediik Health Powered by: Mobility eXchange

The MEDiiK Health app powered by Mobility Exchange is a one of a kind Population Health platform encouraging clinicians and caregivers to care for the **WHOLE PERSON** and address social risk factors that are critical to ones quality of life.

Our focus is on delivering better healthcare value.

*MEDiiK Health*, is a mobile platform that connects a Healthcare organization to community members, co-workers, and targeted populations through an interactive experience.

Share dynamic **digital content, videos, web resources, digital forms**, and more

Enhance direct mobile to mobile voice, telehealth, remote patient monitoring, video and chat communication

The **only platform of its kind** containing all the tools needed to create intimate and immersive interactive relationships between Healthcare providers, Payers, and community members

Integrates with multiple solutions:

- Telemedicine App
- Peer-to-peer chat and video calling
- Share Content and Videos
- Audio Books
- Community Engagement
- Web links
- Secure Messaging

**Consolidate Your Technology Needs Into A Simple User-Friendly Platform**
