

RPM - Remote Patient Monitoring

Powered by: **Mobility eXchange**

The Home Health Technology solutions provided by Mobility eXchange focus on serving the whole person, regardless of age or illness. Leveraging purpose-built mobile devices to act as an extension of a healthcare provider can be life changing.

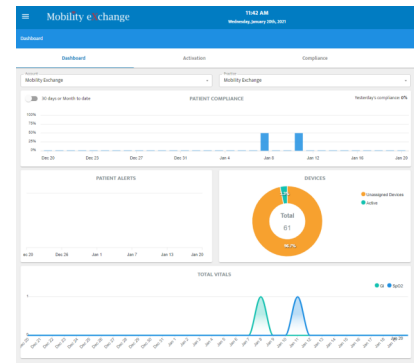

One touch devices compatible with **Android and IOS**

Dependable and **easy to use** Remote Patient Monitoring devices for measuring and monitoring :

- Respiratory flow
- Pulse Oximetry
- Telemedicine
- Glucose
- Weight Scale
- Blood Pressure

An all-in-one dashboard that allows the care team to actively monitor readings captured by the patient's devices.

Providers may bill for time spent accessing, reviewing or interpreting the electronically transmitted patient-generated health data

Providers can initiate services immediately for established patients

For patients with chronic conditions, monitoring and tracking their health data is crucial for managing their care.

Cutting edge RPM technology ensures that this is done as efficiently as possible

- Reduce ER visits 60%
- Reduce 30-Day Readmissions rate by 30%
- Increase Pharmacy Refills by 41%

Connecting patients to the quality care they need in the simplest way possible
