

Field Force Management

Powered by: **Mobility eXchange**

Mobility Exchange focuses on providing our client's field labor with the best digital tools possible while also automating any manual processes that hinder productivity and create substantial overhead.

Key features

- Dispatching & Automated Scheduling
- Optimize Routing, GPS Navigation and Location Tracking
- Time Tracking and Driver Logs
- Secure Chat and Team Collaboration
- Customized Electronic Forms
- Invoicing and Signature Capture
- On Site Payment Processing
- Expenses & Fuel Cards
- Field Worker Safety
- Custom Reporting
- Custom Client Dashboard

Benefits

- Improved Customer Satisfaction
- Improved Productivity
- Improved Quality and Accuracy
- Increase Revenue
- Lower Costs
- Greater Visibility

How it works

Mobility Exchange takes the time to evaluate client's pain points and expenses for field environment, geographical routes and labor force engaged. Upon thorough analysis, we create a unique proposal that combines multiple remote solutions such as asset tracking, administrative automation, monitoring, work order management, etc.
